

We give IT a face.

## The Sycor Group in brief

„As a service provider, we don't sell products, we sell our knowledge of the processes and needs of customers. The only thing our customers see is our face. Well before closing a deal or signing a contract, our customers already have trust in us and our abilities -- our expertise. Without this expertise, there's simply no way of ensuring quality solutions every time. And without quality and a friendly face, there's no way of ensuring customer satisfaction!“

*Dr. Marko Weinrich, President & CEO SYCOR GmbH*

As a full-service provider, the Sycor Group covers the whole spectrum of information and communications technology. With a team of 550 employees around the world, the company ensures long-lasting customer satisfaction across the entire value-added chain, even if it means providing round-the-clock assistance 365 days a year. Sycor's solutions are always tailored, reliable and quality-assured. With headquarters in Göttingen, Germany, and further locations in Germany, Asia, and North America, the company is as international and dynamic as many of its customers around the world.

### Product and services

Sycor primarily provides Microsoft Dynamics AX and SAP® ERP services in addition to management and strategy consulting. The company develops, implements and operates tailored solutions in the areas of telecommunication, archiving and document management, e-business, IT outsourcing and networks. Furthermore the Sycor Group

offers services in the field of Software Asset Management and Unified Communications.

### Industry focus

The consultants and developers at the Sycor Group have solid process know-how thanks to their many years of experience in the company's target markets. As a result, they have developed an eye for both the overall process and the details. This knowledge goes into creating optimized, industry-specific software solutions. In the SAP environment, the company focuses on industrial manufacturing companies. Sycor offers industry-specific SAP Business Allin-One solutions for businesses in the plastics processing industry, businesses in the medical technology sector, automotive component suppliers, surface finishing companies and metal processing enterprises. Sycor also supports companies in the mobile goods rental, process and retail industries with industry solutions based on Microsoft Dynamics AX. In addition, Sycor serves the oil and gas industry in the US.

We give IT a face.
