

## Microsoft XAL

### Sycor – Your Competent Partner for Comprehensive Microsoft XAL Services

We guarantee support for Microsoft XAL and look after the maintenance, adaptation and technical development of your system.

Are you still using Microsoft XAL and need competent support? Or would you like to implement a new ERP system? We have extensive experience with implementing, supporting and migrating XAL – from program adaptation, error correction and report design to interface programming and data transfer. We also support you in migrating to a modern new ERP solution, such as Microsoft Dynamics AX. In doing so, we count on our proven consulting and implementation method, which supports the goal-oriented implementation or migration

#### Overview of our services:

- Ongoing development services in XAL
- Cross-grade to Microsoft Dynamics AX 2012
- Migration of the native database to the modern Microsoft SQL Server database
- Data transfer largely without loss by using existing migration tools
- Meeting budget and time constraints thanks to our successful project methodology
- Experience with national (Germany) and international projects

of the system according to plan.

#### Perfectly positioned for the future

With the combination of comprehensive ERP and predefined industry functionality, Microsoft Dynamics AX is an efficient solution that allows you to achieve sustainable benefits in a very short time. Financial management, personnel management, finance and accounting are part of the core functionality offered by the ERP system. The ERP software also provides predefined functions for manufacturing, retail and services as well as industry solutions on this basis.

As a Microsoft Gold Certified Partner, we have become one of Germany's largest full-range IT service providers for Microsoft Dynamics AX environments. In more than 50 countries worldwide, we have implemented projects for midsize enterprises and major corporations. We have in-depth process and solution know-how with Microsoft Dynamics AX installations with between 20 and more than 1100 simultaneous users. Take advantage of the know-how accumulated by our competent, experienced team and contact us now.

#### About Microsoft XAL:

XAL (Microsoft Business Solutions XAL, Damgaard XAL, NAVISION XAL, Concorde XAL) was a proven ERP software with more than 10,000 installations worldwide. Microsoft has discontinued the distribution of Microsoft XAL as well as support and maintenance services since 2009. New XAL software licenses are no longer available today.
