

E-Business by Sycor

With extensive experience and expertise, Sycor is the ideal partner for any online shop project.

Sycor covers the full spectrum of SAP online shop solutions: hybris, SAP Web Channel Experience Management (WCEM), SAP Web Channel and SAP E-Commerce. Sycor has been implementing professional online shop solutions since 2001 and specializes in B2B applications with ERP or CRM integration. The company's expert team of e-business consultants, developers, designers and specialists for SAP ERP and CRM as well as Microsoft Dynamics AX comes backed up by years of experience. Customers from Germany, Europe, the USA and Africa rely on Sycor for full-service solutions from a single source: consulting and conceptual design for individually tailored e-business solutions, add-ons for enhanced project success which we develop in-house, optimization of existing systems with a focus on performance, usability, user experience and design, plus hosting and support.

The right partner for every online shop

As an internationally positioned SAP Gold Partner and hybris Silver Partner, we offer a full range of IT services for e-business solutions – analysis and conceptual design, implementation, optimization, migration and integration, as well as support and

training. And these services are always quality-assured, available worldwide and tailored to individual customer needs. Sycor has already successfully completed over 170 SAP-integrated online shop projects for 90 companies located in 14 countries and on three continents.

Sycor sets itself apart with a wealth of experience and extensive expertise in e-business solutions based on SAP's hybris, SAP Web Channel Experience Management (WCEM), SAP Web Channel Enablement and SAP E-Commerce solutions. Sycor's experts provide implementation and consulting services for any e-business venture – whether it's in the planning stages or involves the optimization of existing solutions.

Whether a business customer portal, spare parts shop, merchandise shop, retail shop or end customer shop – Sycor is familiar with different customer expectations and knows the best way to meet them. Based on many years of experience with recurring customer requirements, Sycor has developed its own add-ons for the optimization of online shops.

- *Sycor.ContentPack*
- *Sycor.LayoutPack*
- *Sycor.MobileApp*
- *Sycor.SEOptimizer*
- *Sycor.WebAnalytics*
- *Sycor.QuickStart*

With these add-ons, Sycor makes sure that online shops are easier for potential customers to find, that products are presented in an appealing, informative and modern way and that retailers learn something about their customers' behavior.
