

# Sycor.Archive for SAP

## Sycor.Archive for SAP: Documents are coming home

Documents and information have a significant influence on process-related quality, costs and time requirements. This applies to processes involving SAP, too. Our solution: *Sycor.Archive* for SAP.

### A complete package from a single source

With its complete package *Sycor.Archive* for SAP, Sycor offers an ideal access point to SAP archiving. All of the necessary EASY software, plus complete service to get the solution up and running, come included in the package. The result is unparalleled security with regards to time, budget and quality.

### Your SAP processes from A to Z

The complete package consists of a high-capacity archive EASY ENTERPRISE.x (EE.x), the interface between EE.x and SAP, as well as the EASY CAPTURE PLUS scanning component. This makes it possible to map the entire process, starting with document capture to archiving in compliance with audit requirements to linking with the SAP documents, as well as document indexing in the archive.

#### Your challenges:

- Safe and legally compliant storage of documents in SAP
- Provision of other documents within business processes in SAP
- Transparency and access to important documents
- Expense of dealing with paper requirements

### A wide range of practical examples

Essential business document applications such as invoices or delivery notes can be taken care of quickly based on established practical examples. As a SAP Gold Partner, the Sycor Group also offers extensive experience and expertise in the area of SAP. This guarantees that we can provide an ideal solution for even the highest requirements.

### Powerful solutions

The following functions come integrated:

- Audit-compliant storage of outgoing documents
- Capture of documents and provision within the process
- Management of descriptive index values in the archive
- Easy and rapid access via the document, search queries in the AX role center or EASY Client
- SAP data archiving and reorganization

We would also be happy to create a customized quote.

### Your advantages:

- Automatic, permanent and audit-compliant storage of your documents
- Access to documents within seconds
- Greater transparency
- Provision of the necessary documents in the business transaction
- Flexible support through Sycor (including full operation if desired)
