

Sycor.ECM overview

Manage your business. We manage your documents.

Increased cost-effectiveness. Higher quality. Less time spent. Full legal security. When it comes to achieving your corporate goals more effectively, business processes hold great potential. Documents and information play a decisive role here. Sycor recognizes this, and its ECM solutions provide an ideal way to unlock this potential.

Documents: a vital asset

Information and documents are often key factors in business processes – they affect speed, quality, process-related costs and therefore, to a large extent, the results. As such, they play a decisive role in unlocking hidden improvement potential.

High quality and flexible support

With our Enterprise Content Management (ECM) solutions and services, we optimize processes in which the collection, management, storage, protection and provision of information and documents play a central role. As an EASY PREMIUM PARTNER, we have full access to nearly all of EASY SOFTWARE AG's portfolio when carrying out our services. Sycor therefore stands for quality and flexibility to an extent few other partners do. From pure consulting to license acquisition, quality-assured

implementation and software maintenance, to various models of operation in our customers' or Sycor's data center. You're in good hands with us.

Strong partners: SAP and Microsoft

With more than 10 years of SAP and ECM experience, we are your partner for ECM projects in the SAP environment. Our outstanding SAP expertise is also verified by SAP. Sycor is an SAP Gold Partner and is SAP certified in hosting. In addition, Sycor is an EASY development partner for Microsoft Dynamics AX. Microsoft has also recognized Sycor's high level of expertise with certifications as a Microsoft Gold Partner for ERP and Collaboration & Content.

Impressive services

Together with its partners, Sycor provides ECM solutions for the following areas:

- Audit-compliant archiving with/without ERP
- Electronic invoice processing with/without ERP
